

CERTIFIED MILK IS GROWING IN FAVOR

Commission of Physicians Finds That Dairymen Are Carrying Out Instructions.

The movement for the production of certified milk is growing, according to reports from the commission of physicians appointed by the Salt Lake County Medical society, and there is a strong tendency among dairymen to carry out the required operations which will bring all the milk produced by them within the terms of the certification.

The committee which is seeking to bring about this result is composed of the following: Dr. W. R. Tyndale, chairman; Drs. Thurlio E. Jones, I. C. Smedley, H. B. King, F. G. Richards, C. F. Wilcox, W. B. Caldwell, A. A. Kerr and Dr. Gibson.

The result aimed at is the bringing about of conditions at dairies so that the amount of bacteria in the milk will be reduced to the minimum. In diseased cows milk is allowed in the stables, and persons who do the milking must be free from any physical disease. The cows must be kept clean and must all be tested by a veterinary and other provisions carried out. Finally the milk must be brought to a temperature of 50 degrees, and kept there.

When all these matters have been complied with, a certificate is issued to the dairy, which thenceforth is liable to examination at any time. The committee proposes to arrange contracts between themselves and the dairymen whereby the latter will promise to use all the precautions required in the production of pure milk. It is thought that through these means practically all of the milk used will be certified, inasmuch as those dairymen who agree to furnish milk of this quality will be compelled to supply all of their product of the proper standard, and their competitors will then be compelled to bring their milk up to the same standard.

FURNISHED ROOMS MAY BE RENTED PROFITABLY!

Just to have "furnished rooms to rent" is no great feat—no novelty. It is said that one in every three families in the city rent furnished rooms. The number of people whose homes are in furnished rooms, "homes within homes", is very large.

And among the people who live in "one-room homes" are an increasing number who like to have things a little better THAN USUAL. They like to have a pleasant room, and they like to have it fitted up DISTINCTIVELY, with taste.

They will cheerfully, eagerly, pay for SOMETHING BETTER in the way of a furnished room. Fix yours up to please the particular tenants, and ADVERTISE ACCORDINGLY, and you'll get back your investment with profit in a very brief time!

GILES McALLISTER IN ART ENGRAVING WORK

Advertising Firm Buys Out Company and Will Operate a New Department.

It was announced last night that the Giles-McAllister Advertising agency had purchased the plant of the Art Engraving company of Salt Lake, and that hereafter it will be operated as the engraving department of the Giles-McAllister agency. The transfer took place yesterday, and the plant will open this morning under the new management.

E. V. Simpson, for several months past manager of the art department of the agency, will be in charge of the plant, and the force of the retiring company will be retained with few exceptions. Orders for engraving placed for new equipment and supplies, and the new owners will continue the improvements until the plant is one of the most complete in the west.

The growth of the Giles-McAllister Advertising agency has been remarkable in many ways, and this latest move places it in the very front rank of western agencies from the point of equipment.

For the time being the engraving department will be maintained at 62 Main street, where it is at present, but arrangements are being made for the entire floor of a suitably located building large enough to house the several departments of the agency. There are now twelve persons employed, and the addition of a new department contemplated in the very near future will still further increase that number.

The proposed contract and bond are also at the office of said architect and engineer.

A bond must be furnished for one-half of the bid, and good and sufficient check is to be made payable to the undersigned, and is to be forfeited to the undersigned in case the bid is accepted and the time and place of opening bids must not contain conditions, qualifications, propositions or any other things than those mentioned in plans, specifications, drawings, contracts and bonds, and bidder must use the form of bid situated on the west side of Third East street, between 10th and 11th South, for the Salt Lake City Board of Education, according to the plans, specifications and drawings which are open for inspection of the bidders at the office of Richard Kietling, architect, in the Feit Building, opposite postoffice, rooms 417-20, Salt Lake City, Utah, and all bids and proposals at the above time will be publicly opened and read in the office of the Board of Education in the City and County Building, at 10th and 11th South. All bids must be addressed to "Board of Education for Salt Lake City," and marked "Bids for Waterworks and Sewerage," as mentioned below, or such bids can be delivered to the board of education at said time and place of opening same.
